Amateur **Rowing** Association

# Liverpool Victoria Rowing Club

## A club of volunteers

Liverpool Victoria is a members club that does not employ any staff at all. This means that every member will get out of the club what they put in.

The officers and coaches in the Club are all volunteers and commit an immense amount of their own time and commitment to ensure that all members can get their best from this wonderful sport.

## How can parents help?

As well as being a “taxi service” parents can help in many ways:

- Supporting the events at the Club – for example with the catering or with marshalling.
- Supporting Junior Training sessions
  - Land based support
  - Coaching (training can be arranged)
  - Supporting the administration demands of the junior squad

If you are able to support the running of the Junior sessions please speak to the Junior Coordinator.

- Securing sponsorship opportunities

Whilst the membership fees are quite modest this really only pays for the day to day running costs of the club. Acquiring new boats is a different challenge and depends on donations, grant aid or commercial support.

Finding new funding streams for boat renewal is very important for the club.

Parents support will also be most welcome in any other aspect of the general running of the club. If you think you can help please speak to the Chairman, Jim Bibby (e-mail [chairman@lvrc.co.uk](mailto:chairman@lvrc.co.uk))
