

Liverpool Victoria Rowing Club

Planned Phased Return to Rowing

We are planning to gradually increase access to the club and our facilities in line with the latest advice from the government, Sport England and British Rowing. The journey may not be linear and we may be required to close the club again depending on government advice, for example if there is a spike of cases in the area or a 'second wave' causes another national lockdown. Below is a summary of the phases and a brief summary of the actions that the club plans to take for each of them to eventually return the club to normal activity (we are currently in Phase D):

Phase A (from 13th May)

Private sculling is allowed but no clubhouse activity.
The club is closed.

Phase B (from 10th June)

Organised club activity is not permitted but access to the clubs equipment and downstairs toilet (but not the gym, changing rooms, lounge or committee room) is allowed.
Single scullers and household doubles can go out in groups of two or three.
Junior sessions cannot resume as a result of the safeguarding and water safety requirements.
Rowing is restricted to 500m from the boathouse to match Peel Ports guidance for rowing on the dock without a launch.
Due to the absence of safety launches, no rowing boats are to be on the water if shipping movement is predicted anywhere in the West Float (as advised by the Alfred Dockmaster on the day).

Phase C (from 11th July)

Organised sessions with small groups of single sculls are allowed.
Staggered boating times, social distancing and the same hygiene measures are required.
The launch can be put on the water if measures to enable social distancing are followed.
Outdoor exercise classes can be held in the car park with social distancing,
The indoor gym and clubhouse can reopen once government restrictions allow this to happen.
Junior sessions can be resume in groups of up to six, including coach(es) and safety personnel.

Phase D (from 1st August)

Doubles and pairs from other households are now allowed, subject to mitigations.
Launches can go on the water for all sessions.

Phase E (from 15th August)

Coxed and coxless fours are now allowed, subject to mitigations.

Phase F (from 29th August)

Eights and octuples are now allowed, subject to mitigations.

British Rowing have submitted a plan to the Department of Culture, Media and Sport for the phased return of competition for their approval. Once British Rowing have updated their guidance, we will work to organise intra-club races and fixtures between local clubs. The following pages contain the detailed instructions that we would provide to our members for these stages and will be reviewed to address and changes in government and British Rowing advice.

Plan for Phase D (Water Sessions)

1. Before rowing

- a) Make sure that you have checked the latest communication from the club and the government to make sure that their advice has not changed.
- b) Each Saturday the captaincy team will provide a list of available sessions for the adult squads to book the following week.
- c) The junior co-ordinators will invite junior members to attend junior sessions.
- d) Each session will last for a maximum of 90 minutes from arrival at the club to leaving the site. Punctuality is key to this working so make sure that you arrive as close as possible to the time before your session is due to start.
- e) Only single sculls, double sculls, coulees pairs and virus boats can be booked by individuals. Larger boats may only be used by members from the same household.
- f) Do not visit the club if you are currently shielding or have been advised to shield by the government.
- g) If you are not booked to row, coach or be land or safety support for a session please do not visit the club. Parents and guardians of juniors can remain in their cars and observe the session from a distance but must stay away from the clubhouse and stage areas.
- h) The slots will be booked on a first come, first served policy.
- i) The amount of slots that each individual can book each week will be based upon demand and be decided by the captaincy team (for adults) and junior co-ordinators (for juniors).
- j) A Coronavirus parental consent form will be distributed to the parents of junior members. This must be completed and returned to the junior co-ordinator before any junior member is allowed to take part in their first session under the current Coronavirus restrictions.
- k) The adult squads can book a session by e-mailing captain@lvrc.co.uk, the junior squads will be invited to attend sessions by a junior co-ordinator.

2. Social Distancing Instructions

- a) Maintain social distancing of 2m between people who are not members of your household when possible. Even when rowing as a crew, 2m distancing must be maintained when not in the boat, for example when carrying it to the water.
- b) If necessary, you can reduce this to 1m if you wear a face mask to mitigate the increased risk of transmission.
- c) Physical contact between rowers is not permitted.
- d) There will be a maximum of twelve people involved in any session.
- e) Each session will have a designated key holder who will open and lock up the boathouse and a person designated as land support.
- f) Use of the changing rooms is not permitted. Please contact a member of the captaincy team or junior co-ordinators if you have a disability that requires their use and we will be happy to arrange access.
- g) When getting the launch on the water, all members involved must take hold of the launch on the designated points, marked with tape, to ensure that they are socially distancing and are wearing a face mask.
- h) You can get someone to help carry your boat but must maintain social distancing.
- i) All rowers must have left the boathouse at the end of their session, so that there will be no overlap of rowers. A key holder can hand over to a new key holder between sessions whilst maintaining social distancing.
- j) Remain inside your car until the last sculler has left the boathouse to ensure that there is no overlap of sessions. The person on land support will indicate when you can leave your car.
- k) When parking your car, make sure that vehicle is parked away from other vehicles (we have three car parks) and there is space to enter and exit your vehicle whilst observing social distancing guidelines.

3. Hygiene Safety Instructions

- a) Hand sanitiser will be provided at the entrance to the boathouse. Use it immediately after entering the boathouse and at the end of the session.
- b) All boats, including the seats, riggers, runners and shoes; and blades, including the handles and spoons, must be washed with soapy water and disinfectant BEFORE and AFTER use.
- c) After putting the boat back on the rack, wipe down the bow ball and any parts the boat that you have been in contact with to carry it there.
- d) After the end of each session with a launch, the engine must be cleaned out and the seats, handle bars, steering wheel, gear lever and any other surfaces that the driver has been in contact with must be sprayed with disinfectant and washed.
- e) Only use the downstairs toilet in an emergency and wipe down the toilet and sink, using the provided wipes, afterwards.
- f) Do not travel to the club if you have any symptoms of COVID-19, a new and persistent cough, high temperature and loss of taste or smell.
- g) Use disinfectant and blue paper roll to clean doorhandles, taps, roller shutters and any other surfaces that you have touched in the boathouse as you leave.
- h) Arrive with a full bottle of water for personal use.
- i) Take all personal belongings with you at the end of the session.
- j) If you test positive for COVID-19 and have recently been spending time at the club, you must contact a member of the captancy team (adult squad) or junior co-ordinator (junior squad).

4. Water Safety Instructions

- a) Upon arrival at the boathouse, carry out a personal risk assessment to whether it is safe to go out without a safety launch on the water. Take into account the actual water conditions, your fitness level and your experience in a single scull. The coach will have this responsibility during junior sessions.
- b) Before boating, you must phone the dock master and the session is cancelled if there is any shipping movement expected in your time slot.
- c) All launches must contain Grade 1 PPE for the crew (mask, gloves and apron) and a spare mask to use in the event that they need to rescue someone. As the primary purpose of a safety launch is to rescue people, the crew must wear the PPE at all times to be ready to immediately respond to any situation.
- d) The crew of the safety launch must sit at opposite ends of the boat to maximise social distancing. As they will both be wearing PPE, the 'one metre plus' rule will apply.
- e) Only essential first aid should be applied and PPE must be worn. This includes a mask for both parties and gloves for the person administering first aid.

5. Crew Rowing Instructions

- a) Crews should remain as fixed as possible and people should not be rowing in multiple crews to limit the spread of the disease. Only row in a double with someone that you anticipate being in the crew that you choose to rowing this winter.
- b) All rowers must carry and clean their own oars and part of the boat. You must not touch any part of the boat (including the riggers, seats and footplates) or blades used by another rower.
- c) 2m distancing must be maintained at all times when not in the boat.
- d) The whole crew must row together to make sure that their bodies remain far enough apart and the time that the boat is kept still must be kept to a minimum.
- e) There should be no shouting or talking in the boat to limit the risk of the virus being transmitted through moisture droplets.

All club rules that existed before the COVID-19 restrictions still apply and should be followed in addition to the plan set out in this document.

These rules are made to protect the health of both of our members and the wider public. If you are found to be deliberately breaking these rules, we will operate on a three strikes system. The first strike will be a written warning, the second strike will be another written warning and the suspension of access to the club for two weeks. After a third strike, you will be barred from the club's facilities until the pandemic is over at least.

Plan for Phase D (Land Training)

1. Before Training

- a) Make sure that you have checked the latest communication from the club and the government to make sure that their advice has not changed.
- b) Each session will last for a maximum of 60 minutes from arrival at the club to leaving the site. Punctuality is key to this working so make sure that you arrive as close as possible to the time before your session is due to start.
- c) Do not visit the club if you are currently shielding or have been advised to shield by the government.
- d) If you are not booked to train, coach or be a helper for a session please do not visit the club. Parents and guardians of juniors can remain in their cars but must stay away from the clubhouse.
- e) The slots will be booked on a first come, first served policy.
- f) The amount of slots that each individual can book each week will be based upon demand and be decided by the captaincy team (for adults) and junior co-ordinators (for juniors).
- g) A Coronavirus parental consent form will be distributed to the parents of junior members. This must be completed and returned to the junior co-ordinator before any junior member is allowed to take part in their first session under the current Coronavirus restrictions.
- h) Make sure that you have logged the times that you have been present at the club either through booking online or signing into the boat booking book.
- i) The adult squads can book a session by e-mailing captain@lvrc.co.uk, the junior squads will be invited to attend sessions by a junior co-ordinator.

2. Social Distancing Instructions

- a) Maintain social distancing of 2m between people who are not members of your household.
- b) Equipment is spaced 2m apart and tape has been used on the floor to help social distancing make sure that you stay inside the marked areas when training.
- c) Members may wish to wear a face mask in the corridors to mitigate the risk of being in a tightly enclosed space with poor ventilation.
- d) Physical contact is not permitted.
- e) There will be a maximum of seven people present in the gym at all times.
- f) Access to the changing rooms is not permitted for most members. Please arrive and leave the club in kit. Please contact the captaincy team or junior co-ordinators if you have a disability that requires you to use a changing room and we will be happy to arrange access.
- g) When parking your car, make sure that vehicle is parked away from other vehicles (we have three car parks) and there is space to enter and exit your vehicle whilst observing social distancing guidelines.

3. Hygiene Instructions

- a) Clean all touch points including bars, weights, benches, seats, mats and ergs (handles, seat, monitor, footplate and slide) with disinfectant and blue paper towel immediately after use.
- b) No sharing equipment between different households is permitted.
- c) If possible, members are encouraged to take equipment outdoors and exercise in the car park spaced 2m apart and transmission of the virus is less likely outdoors.
- d) If possible, open the double doors to the lounge and windows in that room to improve ventilation into the space.
- e) The ventilation system must be set to us only fresh air from the outdoors and no recycled air and must be switched on for an hour before and after any exercise takes place.
- f) No loud music should be played in the gym and there should be no shouting.
- g) Wipe down all touch points (door handles, light switches, extractor fan controllers) with disinfectant and blue cloth before leaving.
